THE LAW CHART

A practical working index for lawyers of the standard law titles under the Seven Grand Divisions:
Persons - Property - Contracts - Torts - Crimes - Remedies - Government

THIS INDEX GIVES SPEED AND CERTAINTY IN THE USE OF LEGAL REFERENCE WORKS

All the closely related titles are here grouped enabling lawyers at once to compare and discriminate in selecting the right title. Usually the work is half done when the right title is found

Knowing the names of the standard titles is indispensable in finding the law. The use of this chart will quickly impart this knowledge

Copyright, 1922, by The American Law Book Co.

DIRECTIONS:—First, select the grand division that covers your question. Second, select its pertinent red letter subhead. Third, under the subhead select the most specific title.
